SADHANA DASH
Full Stack Developer

I am a passionate and detail-oriented Full Stack Developer with experience in building responsive web applications using the MERN stack(MongoDB, Express, React, Node.js). I enjoy solving problems with clean code and developing user-friendly digital solutions. I'm eager to contribute to real- world projects, continuously learn new technologies, and grow as a developer.

INTERNSHIP

Full Stack Devloper
Remote Intern | Jan 2024
- Developed full-stack web applications using MERN stack (MongoDB, Express.js, React, Node.js).
- Integrated RESTful APIs and third-party services (e.g., Stripe, Firebase).
- Deployed applications to Vercel and Netlify, and managed version control via GitHub.
- Improved page performance and SEO using Next.js and SSR techniques

Python Developer - Bootcamp
Abacus Pvt .Ltd
- Built Python-based projects including web scraping, data analysis, and automation scripts.
- Gained hands-on experience with libraries like Pandas, NumPy, and BeautifulSoup.
- Worked on backend logic and APIs using Flask and Django frameworks.
- Collaborated in team-based mini-projects using Git for version control.

AWARDS

Tech Innovation Award
2023 - 2024

Recognized for developing an innovative full stack project using MERN stack with strong SEO and performance optimization. The project was selected among the top 5 in a university-level competition.

Outstanding Project Presentation
2024

Received top recognition for presenting a full stack web application (React.js & Node.js) during internal evaluations in the Udemy Bootcamp. Commended for project execution and team collaboration.
